-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 8/13/2004 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered. The parent application 09/866425 was checked for references, and if any non-patent or foreign references were not found in that application, they were crossed off the IDS and not considered.

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: 38 and 40. Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New

Art Unit: 3622

Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. **Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.** Claim 1 appears to refer to be a apparatus/system claim (post-session advertising system), but is structured as a method claim by comprising steps.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

5. **Claims 1-13 are rejected under 35 U.S.C. 102(a) as being anticipated by Werkhoven (WO 99/59097).** Werkhoven shows a post-session advertising system and method that includes all of the limitations recited in the above claims.

Regarding claims 1, 2, 4 and 7-12, Werkhoven teaches the displaying of a first display on a web browser in the foreground of a computer (when user opens a Web Page) (Page 4, Lines 1-6, and Figure 1), the initiating of a load triggering event (opening the web page) (Page 4, Lines 1-6, and Figure 1), the opening of a post-session web browser in the background of the computer (the background window is a post-session platform) (Page 4, Lines 1-6, and Figure 1), the displaying of a post-session display on the background window (the advertisement) (Page 4, Lines 1-6, and Figure 1), and the maintaining of the background window in the background until a view triggering event occurs (the loading of the advertisement completes), thus bringing it to the foreground (Page 4, Lines 1-6, and Figure 1).

Regarding claim 3, Werkhoven teaches that there is a predetermined time interval before the post-session window disappears (Claim 3).

Regarding claims 5 and 13, Werkhoven teaches that a certain time period lapses before the window goes away. This is taken to read on the focus timer process. (Page 4, Lines 5-6).

Regarding claim 6, Werkhoven teaches the waiting of a predetermined time interval before being able to open the post-session platform (Claim 4).

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
